CASE NO. PUE-2015-00133

For approval and certification of
electric transmission facilities: transmission
line rebuild of Belvoir-Gum Springs double circuit
230 kV lines #204 and #220

ORDER FOR NOTICE AND HEARING

On December 16, 2015, Virginia Electric and Power Company ("Dominion Virginia Power" or "Company") filed with the State Corporation Commission ("Commission") an application ("Application") for approval and for a certificate of public convenience and necessity for the proposed transmission line rebuild of 230 kV double circuit lines #204 and #220. Dominion Virginia Power filed the Application pursuant to § 56-46.1 of the Code of Virginia ("Code") and the Utility Facilities Act, § 56-265.1 *et seq.*

According to the Application, the Company proposes to rebuild, entirely within existing right-of-way, approximately 2.6 miles of existing 230 kV transmission lines: Jefferson Street-Gum Springs Line #204 and Ox-Gum Springs Line #220, located entirely in Fairfax County, Virginia (the "Project").¹ Dominion Virginia Power represents that the approximate size of replacement structures, the materials the Company proposes to use to construct the proposed Project, and the right-of-way clearing methods, corridor usage and maintenance procedures for the proposed Project are described in Section II of the Appendix to the Application.² The

proposed in-service date for the proposed Project is December 2016.³ The proposed total cost for the proposed Project is \$10.4 million.⁴

Dominion Virginia Power states in its Application that the proposed Project is necessary for the Company to maintain the structural integrity and reliability of its transmission system. The Company also states that the proposed Project is necessary to maintain reliable electric service to its customers in the area and to perform needed maintenance on its existing facilities.⁵

As provided by § 62.1-44.15:21 D 2 of the Code, the Commission and the State Water Control Board ("Board") must consult on wetland impacts prior to the siting of electric utility facilities that require a certificate of public convenience and necessity. Acting on behalf of the Board, the Department of Environmental Quality ("DEQ") must prepare a Wetland Impacts Consultation on this Application, as is required by the Code and the Department of Environmental Quality - State Corporation Commission Memorandum of Agreement Regarding Consultation on Wetland Impacts ("Wetland Impacts Memorandum").⁶ The Commission Staff ("Staff") has requested the Office of Wetlands & Stream Protection of the DEQ to provide a Wetland Impacts Consultation for the proposed Project.⁷

⁷ Letter from Alisson P. Klaiber, Esquire, State Corporation Commission, dated December 21, 2015, to David L. Davis, Department of Environmental Quality, filed in Case No. PUE-2015-00133.

In addition to the consultation on wetlands, the Staff has requested the DEQ to coordinate an environmental review of the proposed Project by the appropriate agencies and to provide a report on the review.⁸

NOW THE COMMISSION, upon consideration of the Application and applicable statutes, finds that this matter should be docketed and the Company should give notice of its Application to interested persons and the public. The Commission also finds that, as required by § 62.1-44.15:21 D 2 and related provisions of the Code and the Wetland Impacts Memorandum, Staff has requested the DEQ to commence its wetland impacts review. Moreover, Staff has requested the DEQ to commence its coordinated environmental review and provide an Environmental Impact Memorandum. We also find that a procedural schedule should be established to allow any interested person an opportunity to file comments on the Application or to participate in this proceeding as a respondent, and the Staff should be directed to investigate the Application and file testimony and exhibits containing its findings and recommendations thereon. We further find that public hearings should be scheduled for the purpose of receiving testimony and evidence on the Application. Finally, we find that this matter should be assigned to a Hearing Examiner to conduct all further proceedings in this matter on behalf of the Commission.
